Executive Summary & Progress Report

The 2012 Law Firm Diversity Report (“2012 Report”) prepared by the Dallas Diversity Task Force (“Task Force”) presents a snapshot of the racial and ethnic diversity of lawyers practicing at the 20 largest law firms in Dallas County. The Task Force surveyed the 20 largest law firm offices in Dallas County, Texas, based on information reported by the *Dallas Business Journal*.¹ The list of surveyed firms in 2012 is the same as it was in 2010 and 2011.

The 2012 Report provides composite scores that measure minority attorney representation at the surveyed firms. The methodology for calculating the firms’ composite scores remains unchanged from previous years. A firm’s composite score is based on a firm’s number of minority attorneys, depth (*i.e.*, number of equity partners vs. other attorneys), and breadth (*i.e.*, diversity across minority groups). The composite score measures firms against two benchmarks: the population of the State of Texas (“Texas Demographics”) and the racial and ethnic composition of the members of the State Bar of Texas (“Texas Lawyer Demographics”).

The 2012 Report also includes checklist scores that measure the firms’ diversity efforts to recruit, retain, and promote minority attorneys. A firm’s checklist score is based on a checklist of diversity efforts that a firm undertook during the survey period. A firm’s checklist score is not used in calculating its composite score.

With seven years of data, the 2012 Report provides an opportunity to evaluate Dallas firms’ progress over time. Only two firms exceeded the lower benchmark of Texas Lawyer Demographics. No firm met the higher benchmark of Texas Demographics.

Notable Improvements

- Fourteen firms improved their composite scores from 2011 to 2012. Of these firms, four are currently at their highest scores since the survey began in 2006 (although one firm has only been in the survey since 2010).
- The average composite score for the largest law firms in Dallas County increased from 46.88 in 2011 to 49 in 2012, after three years of steadily declining (51.6 in 2009, 50.01 in 2010 and 46.88 in 2011).
- 95% of participating firms reported interviewing at minority job fairs, and 45% reported hiring from minority job fairs, which is up 15 points (30%) from 2011 and 25 points (20%) from 2010.

Other Developments

- The composite scores for six firms decreased from 2011 to 2012.
- None of the firms met or exceeded the Texas Lawyer Demographics for African-Americans/Blacks (down from three firms in 2010 and one firm in 2011).

¹ *Largest North Texas Law Firms Ranked by Local Lawyers in 2011*, DALLAS BUSINESS JOURNAL at 17 (Jan 13-19, 2012).

- Just 55 (approximately 6%) of the 840 equity partners at the surveyed firms are minority lawyers, even though minority attorneys make up almost 12% of the total number of all attorneys at these firms and more than 16% of the State Bar.
- Fifteen percent of the firms surveyed have no minority equity partners at all, 70% have no African-American/Black equity partners, 55% have no Asian-American equity partners, 45% have no Hispanic/Latino equity partners, and 75% have no Native American equity partners.

Attrition Data

Since 2010, the Firm Efforts Checklist included questions regarding attorney attrition at the largest 20 Dallas County firms to determine whether efforts to retain minority attorneys have been successful. All but four firms responded to these questions. Although the Task Force is not releasing the complete attrition data, we are providing brief summary highlights:

- In an improvement from 2010, of the 16 firms that responded, the data show that minority attorneys terminated employment at a slightly lower rate than for non-minority attorneys for the second consecutive year (7.6% of all minority attorneys vs. 8.9% of all non-minority attorneys).
- Not surprisingly, turnover in associate ranks continue to be higher than that of partners (11.2% of associates vs. 5% of equity partners). However, minority partners terminated employment at a higher rate than non-minority partners, with turnover of 7% for minority partners (vs. 4.7% of non-minority partners).
- Nine firms that responded had no turnover of minority associates during the relevant time frame, from June 1, 2011, to May 31, 2012.

Selected Individual Firm Highlights

- Weil, Gotshal & Manges LLP has consistently had the highest composite score since 2007 (second highest score in 2006, the inaugural year of this Report) and has exceeded the benchmark of Texas Lawyer Demographics since the inception of this Report in 2006 (higher than 70 points).
- Munsch Hardt Kopf & Harr, P.C. had the most improved composite score, increasing its score from 2011 by almost 17 points.
- Carrington, Coleman, Sloman & Blumenthal, L.L.P. improved its score by more than 15 points.
- Vinson & Elkins LLP had the largest decrease in composite score (more than 9 points), followed by Andrews Kurth LLP (more than 6 points).

I. Background

This seventh annual report of the Task Force continues the work of our inaugural 2006 study of the representation of attorneys of color² at the 20 largest law firms in Dallas, Texas (“2006 Report”). The Task Force aims to examine:

- the number of minority attorneys employed by the 20 largest law firms in Dallas County;
- the positions of minority attorneys (*i.e.*, equity partners, non-equity partners, associates, etc.);
- annual changes and trends in recruiting, retention, and promotion of attorneys of color; and
- the correlations, if any, between firm demographics and the implementation and continuation of best practices for law firm recruiting, retention, and promotion of attorneys of color.

The Task Force continues a dialogue that was highlighted in 1994 when the Dallas Bar Association issued a Statement of Goals related to the recruitment and retention of attorneys of color. *See* Exhibit A, Statement of Goals. We discovered in 2006 that the issues raised in 1994 still demanded attention. Now, with the previous Reports as a benchmark, the 2012 Report offers another opportunity to measure progress in the Dallas legal community. The charts below illustrate the current state of the Dallas lawyer community and the differences in demographic makeup between Dallas County lawyers and Dallas County residents.³

² For purposes of this report, “attorneys of color” and “minority attorneys” are used interchangeably to refer to African-American/Black, Asian-American, Hispanic/Latino, and Native American attorneys.

³ **Sources:** U.S. Census Bureau, State & County QuickFacts for Dallas County, Texas (2011 data, please note that the total exceeds 100%. This is due to the fact that 2.8% of persons reported two or more races, and persons reporting Hispanic ethnicity may be included in any of the minority racial groups); State Bar of Texas Department of Research and Analysis, Dallas County Attorney Statistical Profile (2011-12).

The 2006-2012 Reports provide a qualitative and quantitative snapshot of racial and ethnic diversity in the 20 largest law firms in Dallas County. The Reports calculate a composite score as well as a score for each of the surveyed racial and ethnic groups based on the number of minority attorneys, depth (*i.e.*, number of equity partners vs. other attorneys), and breadth (*i.e.*, diversity across minority groups) and also factor in each firm's most recent efforts to diversify its attorney ranks (collectively, the "Dallas Formula"). The Reports also track current law firm efforts to recruit, retain, and promote minority attorneys. The Reports present, among other information, raw data regarding the demographics of attorneys within the surveyed firms, a comparative analysis of firms based on the self-reported data for all minorities combined and by minority subgroups, and a qualitative account of recommended best practices for minority recruitment, retention, and promotion within law firms.

Bar associations in other Texas cities have also evaluated law firms' efforts in recruiting and retaining minority attorneys. In the past, minority bar associations in Austin, Texas, worked together each year to publish the Austin Diversity Report Card, to assign grades to each of the surveyed firms based on the percentage of attorneys of color employed at each. Additionally, minority bar associations in Houston, Texas, launched their inaugural diversity report card in 2006. It analyzed demographics of attorneys at law firms in Houston, assigning grades and numerical scores based on a "stair step" formula.

Since the 2006 Report was published, the Task Force has received support and inquiries from numerous companies and organizations outside of Dallas. The Task Force has granted permission to some companies that expressed interest in using the Dallas Formula as a tool for assessing the diversity of their outside counsel.

We present the 2012 Report to provide the legal community with a tool for assessing its own progress, and we encourage local law firms and companies to work toward increasing minority lawyer representation in the Dallas legal community. We look forward to discussing the results of the report and strategies for enhancing diversity. Once again, we offer to share our research, methodology, and other materials with groups interested in establishing similar programs elsewhere.

II. Dallas Diversity Task Force Members and Representatives

Formed at the suggestion of the Dallas Hispanic Bar Association, the Task Force comprises representatives from the Dallas Asian American Bar Association, the Dallas Hispanic Bar Association, and the J.L. Turner Legal Association (the African-American bar association of Dallas County). Working together, and by consensus, representatives from each organization contribute different perspectives and histories toward the end of increasing the recruitment, retention, and promotion of attorneys of color in Dallas.

The **Dallas Asian American Bar Association** (“DAABA”) was founded in 1988 to promote the interests of Asian-American attorneys and the Asian-American community. DAABA provides marketing and networking opportunities for its members, mentoring programs for law students, and pro bono legal assistance for Asian-Americans. DAABA is a chapter of the National Asian Pacific American Bar Association. (www.daaba.org)

The **Dallas Hispanic Bar Association** (“DHBA”) began as an informal association in 1969 and was formally organized as the Mexican-American Bar Association of Dallas in 1978. Its membership includes attorneys practicing in Dallas and the surrounding areas, judges, law students, and non-lawyers who join as associate members. DHBA aims to provide legal services to the Hispanic community, to enrich and ensure the success of its members in the legal profession in Dallas, and to become actively involved in issues affecting the Hispanic community. DHBA is an affiliate of the Mexican-American Bar Association of Texas and the Hispanic National Bar Association. (www.dallashispanicbar.com)

The Task Force recognizes that racial and ethnic minorities are but one category of diversity, and that tracking and evaluating the progress of other minority lawyer groups, such as women and LGBT lawyers, is important. Accordingly, the Task Force has offered to share its work with other groups interested in crafting a study of other types of diversity. We sincerely hope that this report encourages future studies on other aspects of diversity in the Dallas legal community.

III. State and Local Demographics⁴

The sharp disparities between the Texas Demographics and Texas Lawyer Demographics provide the backdrop for the Task Force’s inquiry. The following bar graphs illustrate the differences between minority representation in Texas Demographics, Texas Lawyer Demographics, and lawyers working at the 20 largest Dallas law firms. For African-American/Blacks and Hispanics, the representation of attorneys of color statewide falls far short of the higher benchmark—minority lawyer demographics that match the demographics of the general population. And the representation of African-American/Black and Hispanic/Latino attorneys at the 20 largest Dallas law firms does not meet even the lower standard set by the state lawyer population. For Asian-Americans and Native Americans, whose state population representation is relatively low, representation at the 20 largest Dallas law firms exceeds that of the state lawyer representation and is very close to the demographics of the general population of Texas. Over the seven years of Task Force reports, minority attorney representation has risen only slightly for all groups, from an overall average of 8.40% in 2006 increasing by just 3.54 percentage points to 11.94% in 2012 (including an increase of 0.46 points from 2011).

The charts below illustrate the status of minority attorneys in the 20 largest law firms in Dallas, as compared to the Texas lawyer totals and the general Texas population.

2012 Minority Representation

Minority Groups Over Time 20 Largest Firms in Dallas County

IV. Methodology and Scoring

In June 2012, the Task Force surveyed the 20 largest law firm offices in Dallas County, Texas, based on information reported by the Dallas Business Journal. The Task Force requested that each firm complete a Law Firm Information Sheet and a Firm Efforts Checklist. The Law Firm Information Sheet measured racial and ethnic diversity at each law firm and was used to calculate each firm's composite score. The Firm Efforts Checklist measured each firm's efforts to increase recruitment, retention, and promotion of minority attorneys and was used to calculate each firm's checklist score.

A. Law Firm Information Sheet

The Law Firm Information Sheet asked each firm to provide the following information:

(1) the number of attorneys, sorted by race/ethnicity and by position (*e.g.*, equity partner, non-equity partner, associate, and staff attorney), who work primarily in the firm's Dallas County office(s) and were licensed and employed at the firm as of May 31, 2011; and

(2) the number of recently hired attorneys, sorted by race/ethnicity and by position, who accepted offers of permanent employment in the firm's Dallas County office(s) between June 1, 2011, and May 31, 2012.

A copy of the Law Firm Information Sheet is attached as Exhibit B.

1. Composite Score

The information from the Law Firm Information Sheet was used to calculate composite scores that measure minority attorney representation at the firms. The composite score is equal to a representation score plus a recruitment score bonus. The representation score measures a firm's minority attorney representation with respect to minority representation in the state, indicated by percentages of minority attorneys and minority residents in the state. The recruitment score bonus rewards firms' recruitment efforts, and it is calculated using a recruitment score that measures a firm's recruitment compared to recruitment at other surveyed firms.

Potential values for the composite score range from 0 to 100. A higher score indicates a stronger diversity profile. To put the composite score into perspective:

- A score of 100 indicates that a firm likely meets or exceeds the minority resident percentages in Texas for each of the minority groups.
- A score of at least 70 indicates that a firm likely meets the state's minority attorney percentages, but it does not meet the state's minority resident percentages for each of the minority groups.
- A score of less than 70 indicates that a firm likely meets neither the state's minority attorney percentages, nor the state's minority resident percentages for each of the minority groups.
- A score of zero indicates that a firm has no minority attorneys.

The development of the methodology to calculate the composite scores involved a rigorous vetting process. The Task Force studied evaluations conducted by different groups, reviewed various mathematical and statistical methodologies, and considered how to most accurately capture law firm diversity. The Task Force also incorporated into the methodology suggestions and criticisms from multiple experts. Copies of the technical paper produced in connection with this report are available upon request.

2. Important Design Features

a. Individual Minority Groups Are Separately Assessed

The composite score separately considers each firm's record for hiring different groups of minority attorneys. That is, attorneys of color have not been "lumped together" before scoring. Instead, a firm's score for each group is separately assessed before each is combined to produce the composite score. Accordingly, a firm that excels at hiring African-American attorneys cannot compensate for shortcomings in hiring Asian-American attorneys.

b. Equity Partners Are Weighted More Heavily Than All Other Attorneys

Different firms distribute power and profits differently, but equity partners generally direct the policies and share in the profits of the firm. Accordingly, the Task Force assigned more weight to equity partners than to other attorneys. Moreover, an annual evaluation of two groups—equity attorneys and all other attorneys—will reveal changes in the firms' recruiting, retaining, and promoting of minority attorneys.

c. A Firm's Most Recent Successes in Hiring Are Taken Into Account

A firm's most recent hiring reflects the firm's current success in attracting new minority attorneys to the firm. Accordingly, a firm's score takes into account its most recent hiring.

B. Firm Efforts Checklist

The Firm Efforts Checklist lists initiatives that may be used to recruit, retain, and promote minority attorneys. A more detailed description of the Firm Efforts Checklist is attached as Exhibit C. For the most part, a firm receives a point for an initiative if the firm had undertaken the initiative between June 1, 2011, and May 31, 2012. The firm's checklist score is determined by the number of points that the firm has, and measures the firm's diversity efforts relative to the other firms in the survey. In the most recent survey, a perfect checklist score is 37, meaning that the firm is engaged in all 37 of the initiatives described.

Responses to the Firm Efforts Checklist may be used to track trends of different diversity efforts. The responses may also be used in conjunction with firm scores to assess the success of particular diversity efforts.

V. Survey Results

In each chart, firms are ordered according to diversity performance. *A score of 70 indicates that a firm's attorney population reflects Texas Lawyer Demographics.* Firms above the red/bolded line in each chart meet or exceed the lower benchmark Texas Lawyer Demographics. Firms below the red/bolded line fall below the lower benchmark of Texas Lawyer Demographics.

VI. Firm Efforts Results

The Task Force went beyond the analysis of raw numbers and examined diversity initiatives undertaken by law firms. A firm's Efforts Checklist Score is not included for purposes of calculating a firm's overall Composite Score. Instead, the Efforts Checklist is included to assist a firm in identifying "best practices" as well as assessing diversity initiatives relative to that of the other firms. Exhibit C, "2012 Firm Efforts Checklist," lists the checklist questions.

B. Trends

The average Efforts Checklist Score is 24.35 in 2012, which is up from 23.4 last year and 22.6 in 2010. The number of questions contained within the 2012 Efforts Checklist is unchanged from 2011, so last year’s scores are also shown in the table above. This year’s trends include:

- **General Commitment.** All of the participating firms have a written diversity strategy, but only 20% provide billable credit for diversity efforts (up from 15% in 2011 but down from 25% in 2010), and 75% evaluate diversity efforts as part of partner compensation (same in 2011).
- **Diversity Committees and Professionals.** 95% of the participating firms have a diversity committee or a diversity consultant or professional (down from 100% in 2011) and 70% employ a diversity consultant or professional on a full-time or part-time basis (same in 2011).
- **Leadership within Firm.** 35% of the responding firms have a minority attorney in the managing body, which has steadily increased from 30% in 2011 and 25% in 2010. 45% of the firms have a minority attorney who heads a practice group, which is the same percentage as the last two years.
- **Recruiting.** 95% of participating firms reported interviewing at minority job fairs, and 45% reported hiring from minority job fairs, which is up 15 points (30%) from 2011 and 25 points (20%) from 2010, but is still a decrease from the 52% reported in 2009 and 70% in 2008. 60% reported conducting on-campus interviews at law schools where the majority of students are minority students, but only 15% of responding firms hired candidates from such law schools, up from 10% last year but down from 20% in 2010, 26% in 2009 and 63% in 2008.
- **Retention.** All of the responding firms reported monitoring work assignments and committee appointments for minority attorneys. In addition, all of the responding firms have mentoring programs for minority attorneys, which is up from 95% last year and 90% in 2010.
- **Total Attrition (from the Efforts Checklists; only 16 firms responding).** The chart below shows the total racial minority attrition among the surveyed firms during the reporting period.

	All Attorneys	Minority Attorneys	All Attrition	Minority Attrition
Associates and Other Non-Equity Attorneys	1,471	221	165	22
Equity Partners	840	55	41	4
Totals	2,311	276	206	21

- **Minority Organizations.** 95% of the firms pay membership fees for minority bar associations (same in 2011), as well as pay expenses related to participation in minority-focused associations (down from 100% of firms paying expenses related to participation in minority-focused associations in 2011).
- **Communication.** 95% of the responding firms communicate diversity information internally to employees (up from 90% in 2011). In addition, 90% of the firms report that their external websites display diversity information (down from 95% in 2011).

As the Task Force gathers more data over time, the diversity efforts inquiry will trace trends and highlight correlations between the implementation of specific efforts and changes in scores. In time, we expect to offer firms individualized analyses concerning their efforts and the ensuing results.

VII. Conclusion

The 2012 Report synthesizes quantitative and qualitative data, providing benchmarks for monitoring the demographics at large Dallas law firms.

Eighteen of the 20 largest law firms in Dallas fall below the reasonable expectation that their minority representation should reflect the demographics of the Texas bar. From an initial average composite score of 46.0 in 2006, the highest score resulting from this survey to date was 52.5 in 2008. Since then, scores incrementally declined each year to an average of 46.88 in 2011, indicating that many of the gains of the previous years of the survey eroded during the economic downturn. On a positive note, the current average increased slightly by a couple of points to 49 in 2012, which hopefully indicates future upswing in minority representation. The Task Force again challenges law firms to redouble their efforts to attract and retain talented attorneys of color to join their ranks, and encourages firms to scrutinize their current practices to create and sustain more inclusive firm cultures.

We applaud each participating firm for facing these challenges by cooperating with the Task Force to complete this study. Transparency in firm efforts and demographics is an important step toward building a more diverse legal community.

1994 STATEMENT OF GOALS OF DALLAS LAW FIRMS AND CORPORATE LEGAL DEPARTMENTS FOR INCREASING MINORITY HIRING, RETENTION AND PROMOTION

Preface

At a time when our nation's commitment to equal opportunity is not being fulfilled, the Dallas Bar Association adopted a Long Range Plan of Inclusion to promote equal opportunity for minority lawyers in the legal profession. However, not being content to merely speak about the necessity of improving the recruitment, retention and promotion of minority lawyers, the Dallas Bar Association has acted with unmistakable clarity and institutional seriousness to promote the inclusion of all attorneys. Now, the Dallas Bar Association, the Dallas Asian American Bar Association, the Dallas Association of American Indian Lawyers, the Dallas Association of Black Women Attorneys, the J.L. Turner Legal Association, and the Mexican-American Bar Association of Dallas join together to invite the law firms and corporation in the greater Dallas area to become signatories to this Statement of Goals.

This Statement of Goals is intended to confirm to minority law students evaluating employment opportunities, as well as minority lawyers practicing in other regions who are considering a move, that the legal community in the greater Dallas area is omitted to provide equal opportunity for minority lawyers and, more specifically, to pursue the goals and take the steps described in this Statement to increase the hiring, retention and promotion of minority lawyers. This Statement of goals provides the same confirmation to the minority students enrolled, and attorneys practicing, in this area as well as to all other citizens of the greater Dallas area.

The signatories to this Statement of goals, many of whose lawyers are actively involved in the Dallas Bar Association, pledge themselves to take steps to increase the employment of minority lawyers. The signatories further pledge to take the specific steps outlined herein toward the goal of increasing retention and promotion rates of minority lawyers, in part, by providing work opportunities and responsibilities for minority lawyers equivalent to those of non-minority lawyers.

STATEMENT OF GOALS

I. Introduction

1. The number of minority lawyers, including African-American, Asian-American, Hispanic-American, and Native American lawyers (hereinafter collectively called "Minority Lawyers"), practicing in law firms and corporate legal departments in the greater Dallas area has long been small in relation to the total number of lawyers employed by such law firms and corporate legal departments.

2. In a profession which should lead our nation in its continuing struggle for equal opportunity under the law, it is essential that we make further progress in achieving greater representation of Minority Lawyers at all levels in our own firms and corporate legal departments.

3. The increased enrollment of minority students in law schools, which exceeds 15 percent in most schools from which Dallas law firms recruit, affords an opportunity for increasing the representation of Minority Lawyers in firms.

4. As the number of minority attorneys in Dallas law firms increases, corporate legal depart

II. Statement of Goals for Increasing Minority Representation at All Levels of Law Firms and Corporate Legal Departments

EACH SIGNATORY PLEDGES TO PURSUE THE FOLLOWING GOALS:

a Full Participation of Minorities: To achieve meaningful participation of Minority Lawyers at all professional levels in its law firm or corporate legal department.

b Minority Hiring: To achieve the goal of hiring, during the period 1993 through 1998, a substantial number of Minority Lawyers. A desirable goal (not a quota) to be achieved for the initial hiring period in those years would be not less than 10 percent of the total number of all lawyers hired by such firm or corporate legal department of the 10 percent goal at or near the conclusion of the 1993-1998 period to determine whether that goal can be increased for future years.

c. Minority Partners and Shareholders and Senior Corporate Counsel: To promote the admission to partnership or membership in each law firm and to senior counsel status in each corporate legal departments, Minority Lawyers in accordance with the firm or legal department's criteria for such admission. We believe that this goal and the hiring goal set forth in the preceding paragraph are related and mutually dependent, in that in recruitment and retention programs were successful, then overtime, the number of minorities partners and shareholders and senior corporate counsel can correspond more closely to the percentage of Minority Lawyers hired by the firm or corporate legal department. Firms and corporate legal departments that have Minority Lawyers at the senior level are better able to recruit and retain minority law graduates.

III. Steps to be Taken by Firms and Corporate Legal Departments in Recruitment Process

EACH SIGNATORY PLEDGES TO PURSUE THE GOAL OF INCREASING THE NUMBER OF MINORITY LAWYERS HIRED BY TAKING ALL OR SOME OF THE FOLLOWING STEPS:

(a) Using hiring criteria for all lawyers (minority and non-minority) that include not only academic records, but also other factors which indicate potential for success in the law firm or corporate legal department, such as communication skills, leadership, integrity and resourcefulness:

(b) Increasing the pool of minority law student applicants by: (i) augmenting interviewing efforts at law schools with significant number of minority law students; and (ii) identifying minorities students through placements administration, faculty members, former summer associates and minority law student organizations at law schools and by job forums, receptions and other activities for minority law student.

(c) To the extent that a law firm or corporate legal department engages in lateral hiring, increasing the applicant pool by: (i) communicating with the law school placements administrators, faculty members and Minority bar associations, for referrals to practicing

Minority Lawyers, (ii) requesting professional recruiters, when used to include minority candidates in their searches; (iii) requesting minority partners and shareholders of law firms for referrals.

(d) Involving partners and shareholders and senior corporate counsel in the recruiting of minority applicants.

(e) Communicating to all lawyers the firm's or legal department's commitment to the goals set forth in this statement.

IV. Steps to be Taken by Firm and Corporate Legal Departments for Retention and Promotion of Minority Lawyers to Partnership and Management Positions.

EACH SIGNATORY PLEDGES TO CONTINUE TO PURSUE THE GOAL OF INCREASING RETENTION AND PROMOTION RATES FOR MINORITY LAWYERS BY DOING THE FOLLOWING:

(a) Exercising diligence to ensure that the opportunities for Minority Lawyers are the same as those provided to non-Minority Lawyers with respect to the assignment of work on a consistent basis of the type necessary to develop skills and acquire experience success and advancement:

(b) Enhancing programs aimed at increasing retention rates for all lawyers, including Minority Lawyers, focusing on allocation of interesting work, training and guidance, relationships with partners and shareholders and senior corporate counsel, client contacts, feedback and pro bono commitment.

(c) Exercising diligence further to ensure that the work and social environment is hospitable for Minority Lawyers by providing and encouraging that:

- Minority Lawyers receive the same opportunity to perform significant work assignments for important clients as non-minority Lawyers;
- Minority Lawyers receive the same training, mentoring, guidance, feedback and opportunities to grow and succeed as non-Minority Lawyers;
- Minority Lawyers are included in work-related social activities with other lawyers and clients;

- Programs are adopted for all new lawyers, including Minority Lawyers, that enhance their understanding of business concepts, client relations, and their confidence in dealing with such matters;

- Social activities and business development opportunities (both information and formal) are free of discrimination of the basis of race, sex, religion, creed or national origin and are responsive to the cultural diversity of the firm or legal department and its clients.

(d) Providing the same opportunities for Minority Lawyers to achieve and maintain partnership or membership or senior corporate counsel status as non-Minority Lawyers by:

- Using the same criteria in evaluating all lawyers for promotion to partnership, membership or senior corporate counsel status;
- Guiding the development of Minority Lawyers with the same diligence and in the same manner as non-Minority Lawyers;
- Assigning significant responsibility for important client matter and firm management activities to senior Minority Lawyers in the same manner and to the extent that such matters are assigned to senior non-Minority Lawyers.

V. Steps to be Taken by Firms and Corporate Legal Departments to Promote this Statement of Goals

EACH SIGNATORY PLEDGES TO DO THE FOLLOWING AS A MEANS OF PROMOTING THESE GOALS:

(a) Participate in an annual event to be sponsored by the Dallas Bar Association. The annual event will encourage the promotion of these Goals by recognizing signatories which have made significant progress during the year and by providing a forum in which the signatories may discuss other means of promoting these Goals.

(b) Provide the Minority Participation Committee of the Dallas Bar Association with an annual report which will assist the Dallas Bar Association in determining which firms and/or corporate legal departments have made significant

progress during the year. This report may be in the form of the Law Firm Questionnaire, which the signatory provides annually to the National Association for Law Placement, or a narrative or some other form of report.

VI. Scope of this Statement of Goals

This Statement of Goals is an expression of goals and intentions. It is not intended to create any legal obligation of any signatory to the Statement to any other person. It is not intended to imply that a signatory must change its hiring or promotion criteria. However, it is intended that each signatory make reasonable and good faith efforts to implement the steps outlined in this Statement in order to attain the Goals as set forth in this Statement of Goals.
